DETAILED ACTION

Terminal Disclaimer

The terminal disclaimer filed on 12/08/2003 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of the full statutory term defined in 35 U.S.C. 154 to 156 and 173, as presently shortened by any terminal disclaimer, of prior Patent No. 5,933,713 and Patent No. 6,204,095 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claims 1-30 are allowed..

Reasons For Allowance

The following is a statement of reasons for the indication of allowable subject matter: The prior art taken alone or in combination neither discloses nor makes obvious the instant process of claims as a whole. Specifically, the prior art of record, Akagawa (U.S. Patent 5,677,576) discloses a method for forming a semiconductor wafer (FIG. 1: 32) having an active surface, the active surface having bond pads (FIG. 1: 36) thereon, the method comprising: forming conductive traces (FIG. 1: 40) over the active surface, each of the conductive traces having a first end, a second end, a top surface, and a bottom surface wherein the bottom surface of the first end of each conductive trace being in contact with at least one of the bond pads (col. 3, lines 10-39), forming a conductive bump (FIG. 1: 46) on the top surface at the second end of the conductive traces wherein the conductive bump having a top portion transverse to the top surface of the conductive traces (col. 3, lines 58-60, and forming a layer of encapsulation material (FIG. 1: 42) to

cover the active surface of the semiconductor wafer and to surround the conductive bump (col. 3, lines 47-48) but fails to teach or suggest the Applicant's steps of planarizing the top portion of the conductive bump, forming a layer of encapsulation material to cover the active surface of the semiconductor wafer and to surround the planarized conductive bump, and reforming the conductive bump to a preplanarized shape extending above the layer and away from at least portion of the encapsulation material adjacent to the conductive bump as recited in the amended independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
